

# SPECTRUM CONTROLS

## Product Obsolescence Notification

**Issue Date: September 16th, 2019**

Dear Customer,

Spectrum Controls announces the End-of-Life (EoL) of WebPort Remote Access devices and WebPort Connects cloud services. This decision is the result of forthcoming internet technology changes, accelerated by the Industrial Internet of Things (IIoT), that affect the usability and security of the current hardware architecture beyond 2020.

For a more detailed description of this decision, please reference our FAQ page.

Part Number	Description	EoL Date
WP-R-ET-SW-0	Remote Access, Ethernet	12/31/2019
WP-R-4G-SW-AT	Remote Access, 4G Cellular	12/31/2019
WP-R-3G-SW-I	Remote Access, 3G Cellular	12/31/2019
WP40910	Quad Band Antenna	12/31/2019
WP40920	LTE Antenna	12/31/2019
WPC-ACCOUNT	WebPort Connects Account	12/31/2019

Service	Description	End of Service Date
WebPort Connects	Cloud service that provides VPN connectivity, datalog and document storage, dashboards, reports, alarms and user management.	12/31/2020

Spectrum Controls will accommodate orders through December 31<sup>st</sup>, 2019, subject to inventory availability. All orders received prior to the EoL date will be warranted for a period of 1-year as described in the Spectrum Controls literature covering this product. Orders received after the EoL date cannot be accepted.

WebPort Connects accounts and cloud services will be disabled effective December 31<sup>st</sup>, 2020.

If you have any questions about this obsolescence, please contact a Spectrum Controls Inside Sales representative at [spectrum@spectrumcontrols.com](mailto:spectrum@spectrumcontrols.com) or your Spectrum Controls Regional Manager.

Sincerely,

Clint Wooton  
Director of Product Management  
Spectrum Controls
